

SLOMAN NEPTUN Schiffahrts-Aktiengesellschaft

We are a traditional shipping company based in Bremen, Germany. We manage fourteen gas tankers, eight product-/chemical tankers and four multi-purpose-vessels.

For our Ship-Management-Department we are looking for a

QHSE Coordinator (m/f)

The QHSE Coordinator assists in establishing and maintaining QHSE requirements in the companies Safety Management System.

The responsibilities of the QHSE Coordinator include:

- Assists in coordinating audits and inspections
- Assists in establishing QHSE manuals, guidance documents & work procedures within the Safety Management System
- Conducts internal audits and inspections for safe operations and ISM/ISPS/ISO Compliance on board our fleet vessels and in the office
- Assists in preparing monthly, quarterly and annual QHSE statistics
- Assists and participates in incident/accident investigations
- Performs other related duties as required.

The right candidate will fulfill the following requirements:

- Education/degree in the shipping environment or experience in QHSE
- Familiar with ISM/ISPS/ISO
- Advanced German and English language skills (written and spoken)
- Experience in MS Word, MS Excel, Outlook, MS PowerPoint
- Communicative and convincing
- Able to work independently but also as part of a team
- Positive learning attitude
- Willingness to travel
- Preferable if you have an aptitude for engineering and experienced with TMSA and third-party inspections (CDI, SIRE, PSC, Flag State)

We offer a job in a highly motivated team with a very good working atmosphere.
Please send your detailed application incl. photo and desired salary to:
